Committee: Senate Committee On Labor and Business  
Measure, Appointment or Topic: SB916

RE: Support for SB 916

To the Senate Committee On Labor and Business,

As nurse who has dedicated my life to taking care of other for over 30 years I believe this bill would allow us to stand up and be heard. To take a stand against corporations that have billions of dollars. To make our workplaces safe, without the risk of losing our healthcare or our houses. We give everyday we go to work and yet we are not allowed to be able to take care of our families or ourselves. Corporations make decisions based on paper that look good to them not thinking about how it affects our jobs and ability to care for the most vulnerable in our community. This would allow us to try and make a difference and stand up to those that have never done our jobs.

Thank you for accepting my testimony and I look forward to your support.  
Oregon Nurse
