

Submitter: Lori Peila

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

Senate Committee on Labor and Business:

I oppose this bill. The original intent of unemployment insurance is to assist when workers involuntarily lose their job. This bill will increase all employers' costs and will make it less attractive for businesses to open up in Oregon. We already have the 3rd highest employer unemployment tax in the U.S.

This bill makes our State far less attractive to businesses looking to locate here and places, yet again, another burden on the employer.
