On Behalf Of: Self
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB916

SB916 is a terrible idea. Voluntarily walking out of a workplace has never been an acceptable reason for collecting unemployment and it should stay that way. If a nonunion worker were to walk away from their job for a similar reason are you going to grant them unemployment? I doubt it. This is a very slippery slope. And therefore you should vote against this bill.

With regards.
