Measure, Appointment or Topic: SB916

SB 916 is another example of crooked cronyism with unions and Oregon's corrupt politicians. This is why the public has so little trust in Democrats with our taxes. This incentivizes unions to strike while they collect our money. Where would be the motivation for strikers to negotiate ? Oregon is one of the most anti business states, and continues to add deterrents for companies to come here. That only hurts tax payers and working Oregonians. NO!!!!
