

Submitter: Bobby Mitchell

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

My name is Bobby, and I'm a nurse at Providence Milwaukie Hospital. I support SB 916 because the current system gives large employers like Providence the upper hand in negotiations, making it harder for workers to advocate for change. This bill would provide a minimal financial safeguard, allowing nurses to stand up for better conditions without facing severe financial hardship. No one should have to choose between demanding safer workplaces and affording basic necessities. If you stand with healthcare workers, I urge you to vote YES on SB 916.
