Measure, Appointment or Topic: SB916

I am opposed to this SB916.

This bill increases costs for all Oregon employers which increases costs for all of us citizens.

This does not make any sense at all when our cost of living has increased so much in just a few years and there is not a single lawmaker at the local or state level taking any real action to lower our costs. Instead, as illustrated by this bill, lawmakers are working to increase our costs via a tax liability. With inflation affecting every single aspect of our lives, the committee wants to support Unions to go on strike by having Oregon businesses and thus taxpayers pay for them to go on strike? Please make it make sense.

It is unfair for Oregon taxpayers to bear this financial burden for Union members who pay dues to their Union for this situation.

Think of ALL of your constituents, not just the unions, and do not support SB916.

Thank you
