RE: Support for SB 916

To the Senate Committee On Labor and Business,

I have been a nurse for almost 20 years and this is the first time in my career I have had to strike. I am not on strike because I don't want work, I am on strike because the corporation I work for has decided to put profits over people. This corporation has deeper pockets and can certainly financially outlast me. This assistance would give the first responders and union workers of the state of Oregon a chance for their collective voices to be heard, and to bring about meaningful change to corporate healthcare and profiteering over people's well-being. Who will take care of the people who take care of the community?

Thank you for accepting my testimony and I look forward to your support.
Jennifer RN
