RE: Support for SB 916

To the Senate Committee On Labor and Business,

Exercising our right to strike allows us to demonstrate what's important to us. Unfortunately, this dedication to our values is financially taxing, especially when we're doing so against an organization that is willing to hemorrhage money to exert power rather than have a meaningful bargaining session. This bill will allow us greater ability to stand up for what's right.

Thank you for accepting my testimony and I look forward to your support.  
Oregon Nurse
