RE: Support for SB 916

To the Senate Committee On Labor and Business,

Workers go on strike at great sacrifice to themselves and their families. They do it for a greater good. This act of sacrifice and commitment should not be impoverishing. Our system should have the backs of workers who are at such extremes over intolerable conditions in the workplace that they've gone on strike.

If large corporations took care of their employees and listened we would not have to go to this extreme. I've never had to experience a strike until now and this has definitely been needed for a long time. Wake up the sleeping giant as they say.

Thank you.
