RE: Support for SB 916

To the Senate Committee On Labor and Business,

Corporate greed cannot win. Oligarchs cannot win. With solidarity and work stoppage we can make a point for the great good of our communities. However, there is a cost. Workers strike at great sacrifice. They lose money and put themselves and families in a negative financial position while on the picket line. It takes grit and courage. By having unemployment benefits it would allow them to keep fighting for greater good without as much of a financial hardship.

Thank you for accepting my testimony and I look forward to your support.
Oregon Nurse
