

Submitter: Stephen Rhodes

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

This Bill makes no sense. I've been a union member for most of my life and still disagree with this Bill. If anything, it seems like it would encourage strikes and division between employers and employees as well as cost additional money to pay out the unemployment benefits. Unions and Management should work together to seek a common ground that benefits both sides. Strikes could go on indefinitely and that doesn't benefit either the employee or the employer.
