

Submitter: Christopher Hipp

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose measure 114 in its entirety as it is an infringement on constitutionally protected rights. Permits to purchase are immoral with no framework to support rapid implementation, as well as permitting (requiring permission) to exercise a fundamental right that is inalienable to all Americans. The right to self defense, Gun rights are human rights. To enact such measures is disingenuous to the interests of the states residents outside of the larger Portland, Salem and Eugene areas.
