

Submitter: Vincent Heman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

These measures against gun owners who obey the law are simply unconstitutional. Criminals will ignore gun laws just like any other law. This only restricts the rights of a law obeying gun owner not a malicious criminal with a gun. They are also a extreme waste of tax dollars and resources that could be used to deal with homeless and mentally ill persons their trash and hazardous waste. These funds could instead be used to empower law enforcement to act against criminals instead of going after citizens who actually contribute to society and pay the salaries of the radicals in local government. I strongly oppose any infringements on constitutional rights.

Thanks
