

Submitter: John Clements

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am opposed to any infringement on my right, our human right - not a right given to us by government, but as a right we naturally possess- to own weapons and be able to defend oneself and one's family and community. I am opposed to the utopian, politically motivated experimental legislation that only serves elites who can enjoy the protection of their privileged status- those who can live in protected areas, with paid security, and preferential treatment from law enforcement. Criminality and violence do not stem from the ownership of weapons. The vast majority of gun owners do not commit crimes. Criminals that commit violence do not care if there is one more law offering up a technicality to complicate their use of weapons.
