Measure, Appointment or Topic: HB3075

Permit requirement for firearm possession has already been ruled unconstitutional by SCOTUS.

NY v Bruen 2022

McDonald v Chicago 2010

D.C. v Heller 2008.

By implementing these draconian rules, you are not only trampling on the constitution of the US but also Oregon. Not that most of Oregon's politicians care about that. You are also taking away access to the right to defend yourself for many low income families, all while making it easier for criminals to continue in their crimes. Criminals do not follow the law. By forcing this on Oregon, you are making hundreds of thousands of Oregonians criminals and putting them in danger. You all should be ASHAMED of yourselves. Our founding fathers are rolling over in their graves.
