Measure, Appointment or Topic: HB3075

I oppose hb 3075 and bm 114. Both of these go against the US constitution and oregon state constitution. Go back and read the Heller decision and the Bruen decision from the US Supreme Court. Standard capacity magazines are in common use and can NOT be banned. After that read the US constitution especially the second amendment. Shall not be infringed! And any laws that go against US constitution are null and void. Passing a backcountry check to be able to buy a firearm just to do another background check is lunacy.
