

Submitter: Ralph Newton

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Oregon is in the grip of a democrat body politic who will do as they are told by other than the Citizens they hold hostage to their lust for power, agendas of national party, private organizations, and international interests unfriendly to America, Americans, and our way of life. This work around to get what they want for reasons other than the good and will of the Citizenry will accomplish nothing but create further, likely unconstitutional, hurdles for the Citizenry to jump in order to exercise our rightful Civil Rights as guaranteed in The Constitution. 114 passed by a measly .7%, due in large part to the lack of honest reporting and comprehensive information regarding the egregious elements imbedded in that thievery of the Citizens Civil Rights. Now, not content to allow the courts to decide its legality, the democrats are doing this end around in defiance of the Citizenries honest efforts, at great expense to ourselves, seeking equitable justice under the law, choosing, rather, the easy super majority "showing the Citizenry who's boss", thievery of that due process, in unwise pursuit of the Citizenries Liberty . This body of miscreants has shown with sad regularity, that the will and common good of Oregons Citizenry are merely an inconvenience to be shuffled aside as they waste our hard earned tax dollars on self service and the signaling of false virtue. A solid Hell no on HB 3075
