

Submitter: David Jothen

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I strongly request that you reject this unconstitutional effort to strip our 2ns Amendment rights as lawful firearm owners. We already go through a background check, and safely and responsibly own our firearms. These type of laws do nothing to keep firearms out of the hands who show disregard for the law. Felon in Possession is the most dropped charge during the trial portion of criminal trials, even though it's the most easily proven. Start there, and incarcerate criminals who should not possess firearms. That's the true opportunity to make a difference.
