Measure, Appointment or Topic: HB3075

Committee Members,

It is almost laughable that anyone believes you are really concerned about the safety of Oregon citizens. Portland demonstrates my point. Its incremental demise sums up the majority of your irrational policies.

Your goal of suffocating gun ownership has obvious intent to destroy the 2nd Amendment in Oregon and America's Constitution. It continues every year with Borg-like repetition.

You abhor the original purpose of the 2nd Amendment, and of citizens freely owning firearms. As with many other dictatorships throughout history.

HB 3075 is shameful, unnecessary, pointless. embarrassing, vindictive, and worst of all, willfully ignorant to methods to deter violence that work in more sane thinking locations.

Oregon has become such a national embarrassment that you might as well allow someone who identifies as a turtle to run the place.

Heartbreaking. What a waste of a once beautiful and prosperous place to live.
