

Submitter: Stephen Full
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

Dear Legislature-

I'm writing to convey my sincere opposition to HB3075. While its intent is increased safety, it does absolutely nothing to actually increase public safety. We know from our adjacent states that magazine capacity limits, permits to purchase, and waiting periods have done nothing to affect violent crime rates, having only affected law abiding citizens and the law enforcement agencies charged with the impossible task of meaningful enforcement. Please, do not create criminals out of your current law-abiding citizens.

Regards,
Stephen J. Full
Lane County Resident
