Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I Max Cole strongly oppose this measure as it is a blatant violation of both the Constitutions of the United States and the great state of Oregon it is a direct attack on the second amendment the and the community that rally's behind it. Any laws that would prevent or hinder lawful citizens from being able to buy firearms or standard equipment deemed common use is an infringement and should be null and void
