

Submitter: Douglas Brininstool
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I strongly oppose this bill. Law abiding gun owners are being penalized, while criminals will continue to break laws. As a citizen of America, I have the right to protect myself.

This law makes added layers to a process that already works, but infringes on my rights as a citizen of both Oregon and America. To not infringe upon my rights, means this bill cannot legally be enforced and passed. It will be challenged all the way up to the Supreme Court, where this kind of infringement has already been ruled against as unconstitutional!

This bill places an unfair burden by requiring classes , which cost money and are not available. The permit to purchase system isn't even in place, costs are unknown to both citizens and the state. This will essentially be denying 2nd amendment rights to citizens of our state.

This also places an unfair burden on low income people and minorities by adding costs to those who can least afford the additional costs.

I strongly oppose this bill. You must vote no!!
