I oppose this bill because it imposes burdensome requirements on law-abiding citizens without addressing criminal behavior. It is unnecessary and a misuse of time and resources.

Additionally, besides it being unconstitutional, this bill NOT protect law-abiding people.

As of 2018, American civilians owned an estimated 393 million firearms, accounting for approximately 46% of the global civilian-held firearms. This translates to about 120.5 firearms for every 100 U.S. residents.

If American gunowners were a problem, YOU'D KNOW IT. Stop wasting Oregon taxpayer money and resources on this ridiculousness.

Thank you.
