

Submitter: Bryan McGregor

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a citizen and law obiding father in our great state of Oregon. I absolutely oppose this bill along with the majority of Oregonians that I have spoken with. My personal and documented experience regarding our right to defend ourselves as citizens. Has me extremely disappointed in our elected officials and your blatent attacks on our fundamental rights. I ask that this be stopped now. My family has been saved on multiple occasions due to our right to carry, own, and defend ourselves from true criminal behavior. We the law obiding citizens are not the problem. You are losing our support. My home is made up of folks from both parties, and we are united in our stance against this bill and those like it.

Thank you,
Bryan McGregor
