

Submitter: Pam Edwards

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As an Oregonian who has been effected by violent crime I want to state that we have the right to protect ourselves with the firearms necessary to protect ourselves and our families. Criminals are not going to conform to lawful restrictions. The only people this measure is hurting are the law abiding people, leaving them much more helpless and vulnerable. The criminals will have firearms, the rest of the citizens need to be able to defend against them. Thank you for reading this, please think of the safety of your own families as I do.

Thank you,  
Pam Edwards
