

Submitter: Michael Jordan

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

A law abiding citizen should never need a permit or to pay a fee to exercise a constitutionally protected right.

The state cannot even process the gun purchase applications it receives now in a timely manner, with many thousands of Oregon citizens being delayed indefinitely and without explanation.

"Justice delayed is justice denied" applies here as many citizens are already defacto deprived of their civil rights in a system with no transparency or legal framework for appeal.

This bill will only make things worse for law abiding citizens in Oregon while doing nothing to improve safety.
