Measure, Appointment or Topic: HB3075

This is a complete infringement on Oregon citizens. This measure will do nothing but infringe on law abiding citizens. Why can't we get to the real issue and crack down on criminals. We already have laws on the books this a bad people problem. Allowing this to continue will only remove law abiding citizens to protect themselves from those who don't abide by the laws to begin with. Stop with this nonsense and focus on the issues at hand criminals and mental health.
