

Submitter: Travis Owens

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I strongly oppose HB3075, it does not address the real issues of violence with the metal health issues, gang violence, and other causes. This will incriminate myself and many more like myself that want to protect ourselves and our families from the real violence of the world. This is a terrible allocation of funds that we don't have and will take more LE off the streets that we need to deal with the criminals THAT WILL NOT COMPLY WITH 114 OR 3075. The criminals of the state and others that come here will violate 114 and 3075 and we as citizens will not have the ability nor help to protect ourselves or family.

Sincerely

Travis Owens
