Measure, Appointment or Topic:

HB3075

I oppose the measure, it encroaches upon my second amendment rights and the ability to defend my family and keep them safe. It will not stop the criminals who already break the law from possessing them. The only ones that it will affect are the law abiding citizens and their ability to protect themselves. The only ones served by this measure is the government and creates another way for them to collect money from the people of Oregon by forcing them to buy a permit to buy a firearm to protect themselves and over regulate the people of our amazing state. It does not protect our children from the criminals out there who are not afraid of breaking the law in the first place. The system in our beautiful state of Oregon, where I was born and raised is broken and only works towards stripping us away from our rights. We all deserve the right to defend ourselves and that is why the second amendment should not be picked apart and destroyed. This measure does not protect anyone. It only creates another way for the overpaid state government to stick their hands into our pocket and tax the citizens for the ability to defend themselves. Whether it is an armed burglary or World War 3, we law abiding citizens deserve to maintain the right to be prepared and defend our loved ones from imminent danger.
