

Submitter: Robert Knoll

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I was pleased to join fellow concerned Oregonians in working hard to help get Measure 114 on the ballot. The response was very positive, whether standing in the rain, in phone conversations and personal visits. Clearly, voters were in favor of this important measure when they voted for its passage in the election. Now it's time to take this one step to reflect the concerns of the majority of Oregon voters to get Measure 114 smoothly implemented this session. -Thank you. Robert Knoll, Portland
