

Submitter: Donald Ross

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am in opposition to both HB3075-1 and 114

These bills unduly cause harm to those residents from rural counties, not providing ease of appeals or any form of equitable process.

The attached fees are unnecessary and again inequitably affect those who are less well off financially.

Further these bills inequitably affect those who have previously legally purchased firearms and magazines which are and haven been legal, further hindering our already broken criminal justice system creating more law abiding citizens to become criminals.

I am a 53 year old law abiding citizen, who has previously worked law enforcement, have received training thru DPSST for safe firearms handling and storage. I reside in a rural county, living in several acres outside of the city limits, and have at times had cougars and other wildlife which could easily cause harm, damage or death if crossed paths with while outside. I have never heard anyone to wanting to limit themselves to 7 rounds in a fire fight which could result in a life or death situation. The logic behind these bills are absurd and may work fine for those who live in their fancy high rises or more developed areas...these infringe upon my ability to protect myself both on my own property and surrounding areas but also while traveling elsewhere throughout our state.

I oppose these bills
