

Submitter: Justin Salanis-Seabourn

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I'd like to go on record of being in full opposition of this bill as it not only infringes on my rights as an American citizen but it is also a flagrant slap in the face of future generations who would have need of having something to defend themselves and will undoubtedly cause more harm than good in every case.

Thank you.
