

Submitter: Terry Grover

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Gun owners abide by the laws in place that allow for residents to purchase and carry firearms. We are not the criminals you continually try to harm. Enforce the laws already in place. The scratched off serial numbers are not found in the hands of legal gun owners. The ghost guns are not found in the hands of legal gun owners. Implementing additional requirements for legal gun owners is not the right answer.

Enforce the laws. Keep criminals off the streets where they have an opportunity to repeat their crimes. Make it harmful for criminals by taking away their gun rights, keep them behind bars for the criminal acts they perform, and stop placing all gun owners in the same negative classification. We have a constitutional right to bear arms.
