HB3075

As a woman of color, I cannot agree with the current slate of Democrat electors who think I do not have the right to defend my home and children. Making it so difficult and moreover, increasing the amount of money in order to practice my CONSTITUTIONALLY PROTECTED RIGHT TO BEAR ARMS!

Especially in this current economic climate with the increasing costs to every aspect of our lives. So I as a POC with small children am going to have to be defenseless as we try to go about our lives? The police are stretched thin and the time between calling for help and receiving it keeps increasing. When seconds count to stop a crime and defend our lives.

This measure is unconstitutional, Oregon's legislature has no right to block my right to bear arms for self defense. Please realize your error before you commit to a larger mistake that will cost lives.
