Measure, Appointment or Topic: HB3075

As Oregonian who was born and raised in this state I believe that our democrats leaders have lost the sight of the people. They call measure 114, HB3075 constitutional. Nothing about this bill is constitutional. I believe our democrat leaders of this state are only focused on their own agenda and what is best for themselves and liberal woke agenda. They look at our state as a focused group of left minded individuals when in fact it takes both right and left minds to make this state operate and they have lost touch with that. The passing of this bill shows that. Criminals and people who wish to do harm have never and will never fall within the guidelines of law. This only and will only impact the law abiding citizens of this great state.
