

Submitter: Cheryl Smith

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This Bill and any others like it need to be thrown out. Use your time to come up with solutions to criminals buying and using weapons. Maybe more policing? Punishing and or infringing on the rights of law abiding citizens is not a solution. This Bill will not fix the crime element, but is likely to create a whole new set of criminals from those of the people that use guns for hunting and competitions. There has to be a better solution. This may be another wedge and spring board for Move Oregon's Boarder Group.
