Measure, Appointment or Topic: HB3075

I believe this to be a deliberate attack on Oregonians second ammendment rights. The lawful citizens are being punished while the criminals will still have guns. Lawful citizens need to be able to defend ourselves against all enemies both foreign and domestic. As a veteran of this nation I stood an oath to protect our country and to me that includes the states and its people. Instead of punishing lawful citizens, how about you punishing criminals for breaking the law! The size of the magazine has zero recourse to a crime if committed or when a weapon is used in defense. The state has zero infrastructure in place to even carry out a permit to buy. This is an outrage against lawful citizens. The cities with the strictest gun laws have the most gun crime. Because criminals do not obide by the law! All this bill does is make lawful citizen, unlawful and create more issues. Owning a gun is not a privilege, it is a right instilled to us by the constitution of the United States of America. If you pass these bills, you show you have no concern for the citizens of Oregon and our well-being.

Thank you,
