

Submitter: David FIEDLER

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I own Mid-Valley Clays & Shooting School in Gervais OR and I oppose this bill for the reasons following

- 1) This bill would make it very very difficult for parents of many of the 1,000's of the youth high school trap shooters to purchase a tool they would be using for their sport
- 2) It will be a major deterrent to our business that is family owned and operated, Along with many other small shops around the state that would be forced to close.
- 3) I also believe that it goes against the 2nd amendment of the United State of America to force someone to buy a permit to exercise a right given to me by the US constitution
- 4) My personal opinion is that If this bill did anything to stop or slow down crime everyone would be behind it. But the only thing this bill will do is harass people from exercising our 2nd amendment rights, And driving out more small family owned business.
