

Submitter: William r Judy

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I'm an ffl in Oregon and wholly oppose all new gun regulation and bans. We live in a free country with a constitution. Shall not be infringed is clear language. I have been a ffl for 27 years and oregons fics system has been a huge barrier to gun ownership and the indefinite delays has created a backlog. I have some forms from 2021. The osp of services doesn't currently follow the law what makes you think in law will make it any better. I would like some protection as a dealer that I can continue to have a business in Oregon currently I feel under attack. Removing the 3 day delay will only embolden the total disregard the osp has for timely approvals. They have been arbitrarily canceling submissions and charging our accounts. I have filed complaints but gotten no where. It's a false narrative that a permit will create safer gun owners. You want better gun owners open some ranges near the cities. Happy to testify if requested.
