

Submitter: Mary Anne Cassin

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a volunteer who spent many hours collecting signatures, I can tell you I was greeted with much enthusiasm and support for this measure. It has been very frustrating to wait so long to get it implemented, given that it did pass. The amendment is a good addition to the measure, and I urge the committee to pass this important legislation.

This measure will not please everyone, but it's not a radical proposal. The steps proposed in the law are common sense gun safety issues. No one is proposing to go door-to-door and take guns away.
