Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am an Oregon resident and I support sensible gun control. We require tests, classes, and licensing in order to drive, why on earth don't we require similar measures for gun ownership?? The text of the 2nd amendment reads: "A well regulated Militia being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed." WELL REGULATED is right there! If people want to have guns, fine, but every gun owner should show that they are responsible with their weapons. With the gun violence in Portland being so high, citizens demand better safety measures to keep guns out of the hands of criminals.
