

Submitter: Eric Brown

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

HB3075-1 is an infringement on our 2nd amendment rights and will only waste tax money and resources. By placing restrictions on what law abiding citizen can purchase or own will not stop criminals from committing violent crimes. The time and money spent on this infringement should go toward mental health resources where many would benefit from.
