

Submitter: Anthony Haas

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

The legislature should absolutely NOT pass this. Since criminals who have guns are already breaking the law by having a gun, they most certainly are not going to follow this law either. They will arm themselves with the most accessible and common type of weapon they can get. That means they will typically be armed with a firearm that holds more than 10 rounds. In no way should you ever limit law abiding citizens to weapons that are less effective than what the criminals most commonly use.
