I'm very opposed to this bill. It not only denies constitutionality granted rights by purchasing required to apply for permit to observe the second amendment, it also charges to be permitted, to do what is already a protected right.

It also 'post facto' creates a financial burden to defend yourself or family, especially a single parent or those on fixed incomes whom can not afford to do this and purchase new firearms .. and hundreds of thousands standard production firearms do not even have a 10 round magazine option.

This will instantly make several thousands standard production law abiding citizens in Oregon, criminals and fear of prosecution.
