House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I oppose any and all measures/bills that infringe on the God given, and Constitutionally protected rights of the people. A lawful citizen doesn't need permission/permit to exercise a right. There isn't a historical example of restricting the amount of ammunition a person can have in a magazine, and for the lawful citizen, it shouldn't make any difference. Let's spend the peoples money on helping people with mental health issues get better, instead of using it to defend unconstitutional laws.
