Measure, Appointment or Topic: HB3075

These are uncertain times. I am a resident in Irvington, and I am furious about 3075 and the appellate court ruling on Measure 114. I am a lifelong Democrat, and but I am also a responsible gun owner. I don't oppose background checks, but I DO oppose anything limiting my access to STANDARD capacity magazines. These laws criminalize law abiding citizens and are performative at best. now. Anyone who has LEGALLY purchased a rifle in the past two years is apparently now a criminal. Measure 114 passed on RAZOR THIN margins, and if it was put to a vote today at a time when authoritarianism is seizing control of our federal government and the very right of my lesbian, gay, and transgender neighbors to exist is under threat - it WOULD NOT PASS. Until you take concrete steps to respect the rights of law abiding gun owning Democrats, I will actively campaign against anyone who votes for this bill, donate to their opponents, and vote against them both in primaries and elections for as long as I live.

The very first thing the Nazis did was criminalize gun ownership. Learn from history.
