

Submitter: Clinton Whitbeck  
On Behalf Of: My fellow citizens  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

To put it simply, this is antithetical to our constitution's bill of rights and that it would create a barrier to the right to bear arms. even more so for those that are now seeing how this right is a necessity as other rights are being stripped on the federal level. Putting the decision to decide who gets a permit to own a firearm in the hands of someone with potentially dissenting, yet unrelated values puts vulnerable demographics like Women, PoCs, and members of the LGBTQ community at risk of not exercising their rights to the fullest just because of an unspoken (and often common) bias on the part of law enforcement officials. this is a flaw that is impossible to solve and that is reason enough to be a A "NO" for HB3075
