

Submitter: Hunter Knighton

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am submitting this testimony to oppose HB 3075, which modifies firearm permit provisions of Ballot Measure 114 (2022). As a law-abiding citizen, I believe this bill unnecessarily restricts the constitutional right to bear arms, as protected by the Second Amendment. Responsible gun ownership is a fundamental liberty that should not be further limited by excessive regulations. I urge the committee to reconsider this proposal and prioritize the rights of Oregonians to defend themselves and their families. Thank you for your consideration.
