

Submitter: Andrew Epping

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose further changes to 114. The proposed provisions would effectively give those with the ability to issue do so with discriminatory intentions or bias. The increase in fees and costs only serve to make legally obtaining firearms prohibitly expensive for lower income individuals and disproportionatly affect minorities. I view it as direct opposition to the Constitution and infringeing on the citizens protected rights.
