

Submitter: George Botkin

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

It is with the greatest amount of sadness and disappointment that I have to write this letter.

HB 3075 and initiative 114 are against all Law abiding citizens and are both against our state constitution and the US constitution.

How our Representatives can even consider the measures, shows how far removed from the citizens of our state you are.

I urge you NO demand that you vote these gun control bills down. Enforce the laws already in place and prosecute the criminals instead of coddling them.

With this I hope you all will become Representatives of all of Oregon and our Constitution.

George Dean Botkin
